# CURRICULUM OVERVIEW

## Month 1

### Design & Construction Fundamentals

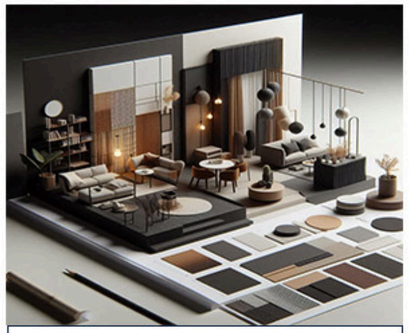

- Design Fundamentals
- Anthropometry & Ergonomics
- Civil Construction
- Material Science
- Stone & Tile Applications
- AutoCAD Fundamentals
- Space Planning
- Climatology

## Month 2

### Interior Execution System

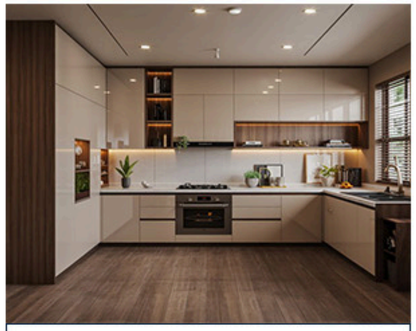

- Plumbing Systems
- False Ceiling Design
- Paneling Systems
- Furniture Design
- Estimation & Costing
- Maths for Design Professionals

## Month 3

### Technical Specialization

- Electrical Design
- Fabric & Soft Furnishings
- Hardware & Fittings
- Creative Design Workshops
- Industry Showroom Visits
- International Design Sessions

## Month 4

### Advance Interior Applications

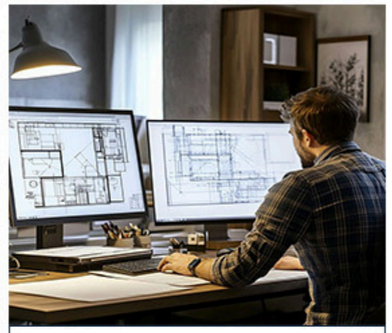

- Kitchen Design
- Roofing Systems
- Paints & Surface Finishes
- Product Design Workshops
- Construction Techniques
- Large Scale Site Studies

## Month 5

### Live Design Project I

- Literature Studies
- Case Studies
- Concept Development
- Landscape Design
- Graphic Design Fundamentals
- Design Reviews
- Jury Presentations

## Month 6

### Live Design Project II

- HVAC Fundamentals
- Portfolio Development
- Project Execution
- Professional Documentation
- Final Design Jury
- Assessments
- Portfolio Presentation

# EXCELLENCE RECOGNITION

## Celebrating Outstanding Performance

### Outstanding Performer

Live Project Opportunity

The highest-performing participant will receive the opportunity to work on a live interior design project in partnership with **Arthat Architects**, gaining professional studio and site experience.
